OVERVIEW

Shee Atiká Federal, LLC (SHF) is an IT firm specializing in mission-focused cybersecurity services tailored for Department of Defense (DoD) and federal government customers. SHF delivers comprehensive solutions in Risk Management Framework (RMF), Assessment and Authorization (A&A), Information Security Continuous Monitoring (ISCM), incident response, zero trust implementation, and supply chain risk management. Our certified team, holding Certified Information Systems Security Professional (CISSP), Certified Information Security Manager (CISM), Certified Ethical Hacker (CEH), and Security+, secures both cloud and on-premises environments in alignment with DoD, National Institute of Standards and Technology (NIST), and Federal Information Security Modernization Act (FISMA) standards. Leveraging proven performance on large-scale DoD contracts, SHF provides dynamic, adaptive cybersecurity engineering and operations, ensuring the confidentiality, integrity, and resilience of mission-critical systems and data.

NAICS CODES

518210, 541511, 541512, 541513, 541519, 541330, 541380, 541611, 541614, 541618, 541690, 541714, 541720, 541990, 561110, 561210, 561320, 561499, 561990, 611430

CONTRACT VEHICLES

- SBA 8(a)-certified subsidiary of an Alaska Native Corporation (ANC)
- Streamlined contracting to expedite and ease procurement
- ANC 8(a) SDB Direct Award (up to \$100M) for DoD

SPECIALTIES

CYBER SECURITY | Specially trained cybersecurity experts to defend government computer programs from attack.

Deliver efficient, end-to-end cybersecurity solutions, ensuring compliance, accelerating Authorization to Operate (ATO), enabling continuous monitoring, and protecting data across environments which enhances security posture through validated remediation and actionable insights from adversarial testing.

ADVISORY & ASSISTANCE SERVICES (A&AS) | Expert guidance to inform government decision-making.

Achieve mission success and stay ahead of cyber threats with our A&AS. Our seasoned subject matter experts empower government agencies to navigate complex challenges, delivering support across cybersecurity, technical evaluations, program management, organizational transformation, workforce modernization, and strategic planning. We partner with you to mitigate risks, drive innovation, and ensure effective contract execution.

FEATURED WORK

CYBER SECURITY SUPPORT | USAF HI Cloud Acceleration and Transformation Support (HICATS)

Our program's Information System Security Managers and Officers ensure secure and compliant operations through continuous evaluation, documentation, and testing of system security controls to achieve and maintain an ATO. We conduct comprehensive cyber security testing, including static/dynamic code analysis, database scans, and application/system assessments, aligned with Defense Information Systems Agency Security Technical Implementation Guides and Open Web Application Security Project standards. Our ISCM strategy provides real-time threat awareness, enabling proactive risk management and sustained RMF compliance.
