- 541370: Surveying and Mapping (except Geophysical) Service

Alaska Northstar Federal (ANF) is a wholly owned SBA 8(a)-certified subsidiary of Shee Atiká, Inc., an Alaska Native Corporation (ANC). ANF delivers advanced IT solutions to federal agencies with a focus on Artificial Intelligence (AI), Machine Learning (ML), and secure cloud, edge, and hybrid deployments and migration from data centers. ANF supports full lifecycle AI/ML implementations, governance, and policy enforcement, while applying DevSecOps and FinOps methodologies to reduce infrastructure sprawl and optimize cloud spend. ANF also supports data visualization efforts through dashboarding to allow for more effective decision making at the organization leadership level. With direct award eligibility and support for contracts up to $100M, ANF rapidly deploys expert teams to meet mission-critical needs across defense and civilian sectors.

Ramboll, established in 1945, has distinguished itself as a leader in engineering innovation, supporting the United States Department of Defense, federal agencies, and a broad spectrum of commercial and private clients worldwide in realizing their most ambitious infrastructure and sustainability objectives. By seamlessly integrating environmental, energy, and water expertise with advanced digital solutions, Ramboll consistently achieves transformative outcomes across both the public and private sectors. Ramboll is regarded as a trusted partner, offering unparalleled technical proficiency and a global perspective to federal, commercial, and private clients, supporting the US Army Corps of Engineers (USACE), US Air Force (USAF), and US Environmental Protection Agency (EPA). Ramboll has a rich history of over 2,000 projects across multiple federal agencies in the US and Europe, showcasing deep technical expertise and global reach.

Relevant Experience

- Headquarters U.S. Army Corps of Engineers (USACE)
- United States Air Force (USAF)
- U.S. Environmental Protection Agency (EPA)
- U.S. Department of Agriculture (USDA)
